Sustaining the future

Fort Carson is working to secure the future by working with local governments and stakeholder organizations to meet three goals: mission, community (to include economic development) and environment.

One of the post's recent projects includes a \$13 million two-megawatt solar array that will generate about 3,200 MWh/year. It is the largest array in the Army to date and will serve 2.3% of Fort Carson's load or the equivalent of 540 homes.

Warrior Ethos:

I WILL ALWAYS PLACE THE MISSION FIRST.

I WILL NEVER ACCEPT DEFEAT.

I WILL NEVER QUIT.

I WILL NEVER LEAVE A FALLEN COMRADE.
